

GEZE SLIMDRIVE SLV AND SLIMDRIVE SL INCLINED
FANCY APPEARANCE AND PERFECT INTEGRATION

Corner Sliding Doors (SLV)

Freedom in design - for angles between 90° and 270°

GEZE offers the perfect technical solution for the simple movement of corner sliding doors: The Slimdrive SLV drive – with an overall height of only 7 cm of course – is used wherever a special design is required or the entrance area has to follow certain architectural requirements. If the Slimdrive version SLV-FR is used, the corner sliding door can also be used in emergency exit routes. This innovative technique requires absolute precision work. On request GEZE will meet its customers specific requirements and develops the perfect solution for each building situation.
